Dr. Daniel D. Michaels, DPM, MS, FACFAS

Dr. Johnny J. Motran, DPM, AACFAS

Hagerstown 301.797.8554 (877.797.FOOT), 1150 Professional Court, Suite C, 21740
Frederick 301.418.6014 (866.338.FOOT), 2100 Old Farm Drive, Suite D, 21702

We provide Comprehensive Foot and Ankle Care® to the residents of Central Maryland with offices currently in Hagerstown and Frederick, Maryland. From basic care of ingrown toenails, heel pain and warts to reconstructive procedures and management of complex pain conditions, we provide a one-stop shop for all your needs. For your convenience, all recommended medicines and foot-care products are available through our in-office and online retail stores www.rfainstitute.com. Same day and emergency appointments are available without a wait. Our staff is approachable and knowledgeable with a willingness to help and solve your foot and ankle problems. We focus on conservative, non-surgical treatment and exhaust these options prior to recommending surgery. Our providers work with you as a patient and partner by listening to and educating you about treatment options so you can make an informed choice of treatment that fits your individual needs.

WOMEN: STILL THINK HIGH HEELS ARE WORTH IT?

It's not what fashion-conscious women want to hear—another warning about high heels.

But according to a Frederick/Hagerstown foot and ankle surgeon, pump-style shoes often cause significant pain by irritating a common bony deformity on the back of the heel called 'pump bump.' In many cases, it can lead to bursitis or Achilles tendonitis if left untreated.

“Pump bump is common in young women who wear high heels almost every day,” says Dr. Daniel D. Michaels, DPM, MS, FACFAS with offices in Frederick and Hagerstown, Maryland. He is a member of the American College of Foot and Ankle Surgeons (ACFAS).

“The rigid back of a pump-style shoe can create pressure that aggravates the heel bone when walking,” says Dr. Michaels.

According to the Reconstructive Foot & Ankle Institute, LLC Consumer Web site, www.rfainstitute.com, the bump or bony protrusion is a hereditary deformity that can

cause Achilles tendonitis or bursitis due to constant irritation from pump-style shoes. Those with high arches or tight Achilles tendons are especially vulnerable to developing pump bump if they work in high heels.

The medical term for the disorder is Haglund's deformity. In addition to the noticeable bump, symptoms include pain where the Achilles tendon attaches to the heel, swelling in the back of the heel and redness in the area.

In most women, doctors can prescribe medications to reduce the pain and inflammation. This does not, however, get rid of the bony protrusion. Dr. Michaels says icing the back of the heel reduces swelling, and stretching exercises can relieve tension in the Achilles. Long-term, it's best to avoid wearing high heels, if possible.

"When the dress code requires high heels, I tell my female patients to try heel lifts to decrease pressure on the heel," says Dr. Michaels. "Or, I recommend they wear appropriate dress shoes that have soft backs or are backless."

Women with foot pain can contact Dr. Michaels office (see below).

For further information about foot or ankle conditions, contact Dr. Michaels and the Reconstructive Foot & Ankle Institute, LLC at www.rfainstitute.com or make an appointment with one of our offices in Maryland:

Thank you for your interest in the Reconstructive Foot & Ankle Institute, LLC. Daniel Michaels, DPM, MS, FACFAS and Johny Motran, DPM are Podiatrists at the Institute providing Comprehensive Foot & Ankle Care® and are board certified or board eligible by the American Board of Podiatric Surgery and are also Fellows or Associates of the American College of Foot and Ankle Surgeons. No problem is too small or large to manage in our friendly, warm, state-of-the-art facilities. All Providers have full hospital privileges at Washington County Hospital and Frederick Memorial Hospital and have trained at one or more of the following facilities to provide you with the most efficient and effective care possible: Yale University, University of Maryland (College Park, Shock Trauma), University of Texas (Dallas, Austin, San Antonio), University of California at San Francisco, Harvard University, and Temple University.

We utilize efficient scheduling so you don't have to wait for an appointment or in our waiting room when you arrive. All locations are open Monday through Friday with same day and emergency appointments available. Patients are treated in a pleasant, friendly environment utilizing evidence-based medical approaches to all ailments.

Our offices provide in-office diagnostic ultrasound, X-ray, fluoroscopy, shockwave therapy, ambulatory surgical care and physical therapy services. We treat all foot and ankle pathology from pediatric to geriatric, diabetic foot care/amputation prevention, heel pain, trauma, bunions, ingrown toenails and hammertoes. A full array of shoes and braces that support lower extremity pathology and augment surgical repair as well as advanced surgical techniques are available. The Institute participates with most insurance

plans and offers patients the convenience of an on-site and online retail store supplying foot and ankle products as well as a full line of dress, athletic and custom shoes.

Please visit our website at www.rfainstitute.com to learn more about the Institute. For questions and other information e-mail us at info@rfainstitute.com.

To make an appointment at our **Frederick office**, please call **301.418.6014** or **866.338.FOOT(3668)**. 2100 Old Farm Drive Ste. D, Frederick, MD 21702
