Dr. Daniel D. Michaels, DPM, MS, FACFAS

Dr. Johnny J. Motran, DPM, AACFAS

Hagerstown 301.797.8554 (877.797.FOOT), 1150 Professional Court, Suite C, 21740
Frederick 301.418.6014 (866.338.FOOT), 2100 Old Farm Drive, Suite D, 21702

We provide Comprehensive Foot and Ankle Care® to the residents of Central Maryland with offices currently in Hagerstown and Frederick, Maryland. From basic care of ingrown toenails, heel pain and warts to reconstructive procedures and management of complex pain conditions, we provide a one-stop shop for all your needs. For your convenience, all recommended medicines and foot-care products are available through our in-office and online retail stores www.rfainstitute.com. Same day and emergency appointments are available without a wait. Our staff is approachable and knowledgeable with a willingness to help and solve your foot and ankle problems. We focus on conservative, non-surgical treatment and exhaust these options prior to recommending surgery. Our providers work with you as a patient and partner by listening to and educating you about treatment options so you can make an informed choice of treatment that fits your individual needs.

FOOT INJURIES COMMON AFTER (STORMS OR HURRICANES OR TORNADOES)

With (HURRICANE OR TORNADO OR FLOOD) season officially underway, a Frederick and Hagersown foot and ankle surgeon reminds residents about the risk of serious foot injuries during disaster clean-up.

“In the aftermath of a storm, people just want to clean up the debris as fast as they can and get on with their lives,” says Dr. Daniel D. Michaels, DPM, MS, FACFAS. “By taking some simple precautions to protect their feet from injury, they can make the clean up go more quickly and more safely.”

Many (HURRICANE OR TORNADO) survivors suffer puncture wounds on their feet. After Hurricanes Katrina and Rita, foot and ankle surgeons along the Gulf Coast reported treating patients who injured themselves wearing flip-flops and sandals during debris clean-up. Some patients developed bone infections from improperly treated puncture wounds caused by nails and other sharp objects.

Puncture wounds require medical treatment within 24 hours to avoid infection and other complications from embedded foreign objects. Pieces of skin, sock and the shoe itself can be forced into the wound during a puncture, as well as dirt and debris from the object itself. If medical care is inaccessible, every hurricane survival kit should include first aid supplies.

“If you can’t get to a doctor, you can still irrigate the wound, apply a topical antibiotic, and a clean bandage,” says Michaels. “Then see a doctor for follow-up care, including a tetanus shot if necessary.”

After initial treatment, Dr. Michaels recommends puncture wound victims see a foot and ankle surgeon for a thorough cleaning and careful follow-up to monitor the wound for infection and to prescribe antibiotics if necessary.

Other storm foot safety tips include:

... Watch where you walk. Debris and murky floodwaters can conceal sharp objects. Be careful standing on unstable surfaces and piles of debris that can throw you off balance, causing ankle sprains or fractures.

... Wear appropriate shoe gear, work boots if possible. Don’t go barefoot. Avoid open-toed footwear like sandals.

... Take precautions when cutting down tree limbs. One hurricane victim broke several bones when sawing down a heavy tree limb that landed on her foot.

For further information about foot or ankle conditions, contact Dr. Michaels and the Reconstructive Foot & Ankle Institute, LLC at www.rfainstitute.com or make an appointment with one of our offices in Maryland:

Thank you for your interest in the Reconstructive Foot & Ankle Institute, LLC. Daniel Michaels, DPM, MS, FACFAS and Johny Motran, DPM are Podiatrists at the Institute providing Comprehensive Foot & Ankle Care® and are board certified or board eligible by the American Board of Podiatric Surgery and are also Fellows or Associates of the American College of Foot and Ankle Surgeons. No problem is too small or large to manage in our friendly, warm, state-of-the-art facilities. All Providers have full hospital privileges at Washington County Hospital and Frederick Memorial Hospital and have trained at one or more of the following facilities to provide you with the most efficient and effective care possible: Yale University, University of Maryland (College Park, Shock Trauma), University of Texas (Dallas, Austin, San Antonio), University of California at San Francisco, Harvard University, and Temple University.

We utilize efficient scheduling so you don't have to wait for an appointment or in our waiting room when you arrive. All locations are open Monday through Friday with same day and emergency appointments available. Patients are treated in a pleasant, friendly environment utilizing evidence-based medical approaches to all ailments.

Our offices provide in-office diagnostic ultrasound, X-ray, fluoroscopy, shockwave therapy, ambulatory surgical care and physical therapy services. We treat all foot and ankle pathology from pediatric to geriatric, diabetic foot care/amputation prevention, heel pain, trauma, bunions, ingrown toenails and hammertoes. A full array of shoes and

braces that support lower extremity pathology and augment surgical repair as well as advanced surgical techniques are available. The Institute participates with most insurance plans and offers patients the convenience of an on-site and online retail store supplying foot and ankle products as well as a full line of dress, athletic and custom shoes.

Please visit our website at www.rfainstitute.com to learn more about the Institute. For questions and other information e-mail us at info@rfainstitute.com.
