Dr. Daniel D. Michaels, DPM, MS, FACFAS

Dr. Johnny J. Motran, DPM, AACFAS

Hagerstown 301.797.8554 (877.797.FOOT), 1150 Professional Court, Suite C, 21740
Frederick 301.418.6014 (866.338.FOOT), 2100 Old Farm Drive, Suite D, 21702

We provide Comprehensive Foot and Ankle Care® to the residents of Central Maryland with offices currently in Hagerstown and Frederick, Maryland. From basic care of ingrown toenails, heel pain and warts to reconstructive procedures and management of complex pain conditions, we provide a one-stop shop for all your needs. For your convenience, all recommended medicines and foot-care products are available through our in-office and online retail stores www.rfainstitute.com. Same day and emergency appointments are available without a wait. Our staff is approachable and knowledgeable with a willingness to help and solve your foot and ankle problems. We focus on conservative, non-surgical treatment and exhaust these options prior to recommending surgery. Our providers work with you as a patient and partner by listening to and educating you about treatment options so you can make an informed choice of treatment that fits your individual needs.

OLD ANKLE SPRAINS COME BACK TO HAUNT BABY BOOMERS

Hagerstown, Frederick Maryland foot and ankle surgeon has a message for Baby Boomers getting back into fitness and sports: Get your ankles checked for chronic instability caused by injuries that might not have healed properly years ago.

Daniel Michaels, DPM, MS, FACFAS, says many Boomers who have suffered ankle sprains in their younger years could be at risk for more serious damage as they age and try to stay active. It is estimated that one in four sports injuries involves the foot or ankle, and a majority of them occur from incomplete rehabilitation of earlier injuries.

“Pain isn't normal in the ankle, even if you're just getting back into shape,” says Dr. Michaels.

He says swelling is another symptom these previously-injured Boomers may experience. Both amateur and professional athletes often misunderstand how serious a sprain can be, and they rush back into action without taking time to rehabilitate the injury properly.

“A sprain that happened years ago can leave residual weakness that isn’t noticed in normal daily activity, but subjecting the ankle to rigorous physical activity can further damage improperly healed ligaments, and cause persistent pain and swelling,” He said.

“For anyone hoping to regain past athletic fitness, it’s recommended that you have that old ankle injury checked out before becoming active again.”

Some sprains are severe enough to strain or tear the tendons on the outside of the ankle, called the peroneal tendons. Research shows that more than 85 percent of athletes who had surgery to repair a torn peroneal tendon were able to return to full sporting activity within three months after the procedure.

“Peroneal tendon tears are an overlooked cause of lateral ankle pain,” said Dr. Michaels. “Although surgery for athletically active patients shouldn’t be taken lightly, surgical repair of the peroneal tendons is proving to be very successful in helping athletes with serious ankle problems return to full activity.”

Dr. Michaels added that persistent pain and tenderness after a sprain, especially if the individual felt a ‘pop’ on the outside of the ankle and couldn’t stand tiptoe, might be a warning sign that the tendon is torn or split. The injury is best diagnosed with an MRI exam.

Thank you for your interest in the Reconstructive Foot & Ankle Institute, LLC. Daniel Michaels, DPM, MS, FACFAS and Johny Motran, DPM are Podiatrists at the Institute providing Comprehensive Foot & Ankle Care® and are board certified or board eligible by the American Board of Podiatric Surgery and are also Fellows or Associates of the American College of Foot and Ankle Surgeons. No problem is too small or large to manage in our friendly, warm, state-of-the-art facilities. All Providers have full hospital privileges at Washington County Hospital and Frederick Memorial Hospital and have trained at one or more of the following facilities to provide you with the most efficient and effective care possible: Yale University, University of Maryland (College Park, Shock Trauma), University of Texas (Dallas, Austin, San Antonio), University of California at San Francisco, Harvard University, and Temple University.

We utilize efficient scheduling so you don't have to wait for an appointment or in our waiting room when you arrive. All locations are open Monday through Friday with same day and emergency appointments available. Patients are treated in a pleasant, friendly environment utilizing evidence-based medical approaches to all ailments.

Our offices provide in-office diagnostic ultrasound, X-ray, fluoroscopy, shockwave therapy, ambulatory surgical care and physical therapy services. We treat all foot and ankle pathology from pediatric to geriatric, diabetic foot care/amputation prevention, heel pain, trauma, bunions, ingrown toenails and hammertoes. A full array of shoes and

braces that support lower extremity pathology and augment surgical repair as well as advanced surgical techniques are available. The Institute participates with most insurance plans and offers patients the convenience of an on-site and online retail store supplying foot and ankle products as well as a full line of dress, athletic and custom shoes.

Please visit our website at www.rfainstitute.com to learn more about the Institute. For questions and other information e-mail us at info@rfainstitute.com.

To make an appointment at our **Frederick office**, please call **301.418.6014** or **866.338.FOOT(3668)**. 2100 Old Farm Drive Ste. D, Frederick, MD 21702
